Subject: Congressional letter re Willowbrook ambient air testing
Attachments: 18.09.21 - Letter re Willowbrook ambient air testing request - EPA Wheel....pdf

Cathy and Kurt,

I want to make sure you saw this letter that we received on Friday. In it, Sens. Durbin and Duckworth and Rep. Foster “request that the U.S. Environmental Protection Agency (EPA) conduct ambient air testing near the Sterigenics facility in Willowbrook, Illinois, make monitoring data open and accessible to the community.” They also “request information regarding a document that was intended to provide context to Willowbrook residents on the Agency for Toxic Substances and Disease Registry's (ATSDR) report that was abruptly removed from EPA's website.”

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

These issues could come up during your meeting tomorrow, and are certain to come up at the meeting on Friday.

We also just received an inquiry about the letter from E&E News ... HQ has responded to that with “We will respond to the Members of Congress through the proper channels.”

Jeff Kelley
Director, Office of External Communications
U.S. EPA Region 5
